

Memo/Reply From  
JOSHUA LEDERBERG

TO: Mr. E. J. Bass

FEB 24 1985

*Eco Sphere*

My family and I enjoyed the specimen for several weeks, and we wished to express our appreciation for your thoughtfulness.

Also (as best I can diagnose it) the shrimp consumed the algae too quickly and they all expired about 10 days ago. I have maintained illumination and the algae are beginning to come back.

Our meeting was most thought-provoking; and I enjoyed the chance to brainstorm with you and your colleagues. Since then we also had the pleasure of renewing acquaintance with Bob and Ann (whom we had met at Stanford.)

With best wishes,

Joshua Lederberg
